

BT Pharma®

Quality Beyond
the
Product

Al-Shajara Al-Mobaraka for Medical Supplies Industries.

Introduction

BT pharma[®]

An industrial company specializing in developing pharmaceutical products containing natural medicinal herbs to ensure that our products are free of harmful industrial substances or genetically modified materials.

BTPharma[®] adopted a quality policy that achieves the mission of finding effective solutions to health problems without side effects and at an appropriate cost.

To make life easier and healthier, we are working hard to follow scientific research methodology, modern management methods, and technology acquisitions to achieve our vision of being a leading company in the field of medicinal herbs all over the globe.

Our Story

As the blessed olive tree, which is rooted in this blessed land that is rich in tenderness over years, produces the oil that illumines the light and health we wanted to be.

Our company was established in 2014, and we named it Al Shajara Al Mobarakah for Medical Supplies Industries **BTPharma®** to be inspired by its generosity, roots, and blessing.

In 2015, we started launching our first product in the Jordanian market and exported the first shipment, marking the beginning of our expansion in the Arabian region.

Our achievement was followed by the building of our first factory in Jordan, Salt City, with two basic production lines: the first line for medical supplies and cosmetics, and the second line for food supplements and special foods.

During the first half of 2018, we obtained GMP quality certification, as a first step in building the quality system that we seek, to get all international quality accreditations, which will open the door to the opportunities to be explored.

During the COVID-19 epidemic until this day, we are still committed to saving people's lives by taking the lead in supplying food supplements to prevent this virus, covering the needs of vitamin C and zinc locally, and expanding our support to other countries in the region.

The improvement continued in 2022 by investing in a 1100 m² of total occupied manufacturing site in Salt, Industrial Estate.

This new state of art facility was built to the highest quality standards and was accredited with HACCP, GMP and ISO 22000 certificates.

This investment allowed us to enrich our products portfolio with unique and previously unexplored supplements, addressing needs that have been only partially met in the past.

Our Vision

To develop, manufacture, and distribute a comprehensive range of pharmaceutical and medical products and services worldwide.

Our Mission

Our mission is to discover effective solutions for health challenges, promoting healthier lives through the development of high-quality pharmaceutical herbal products derived from the purity of nature. We aim to provide effectiveness without adverse side effects, all at a reasonable cost.

Our Values

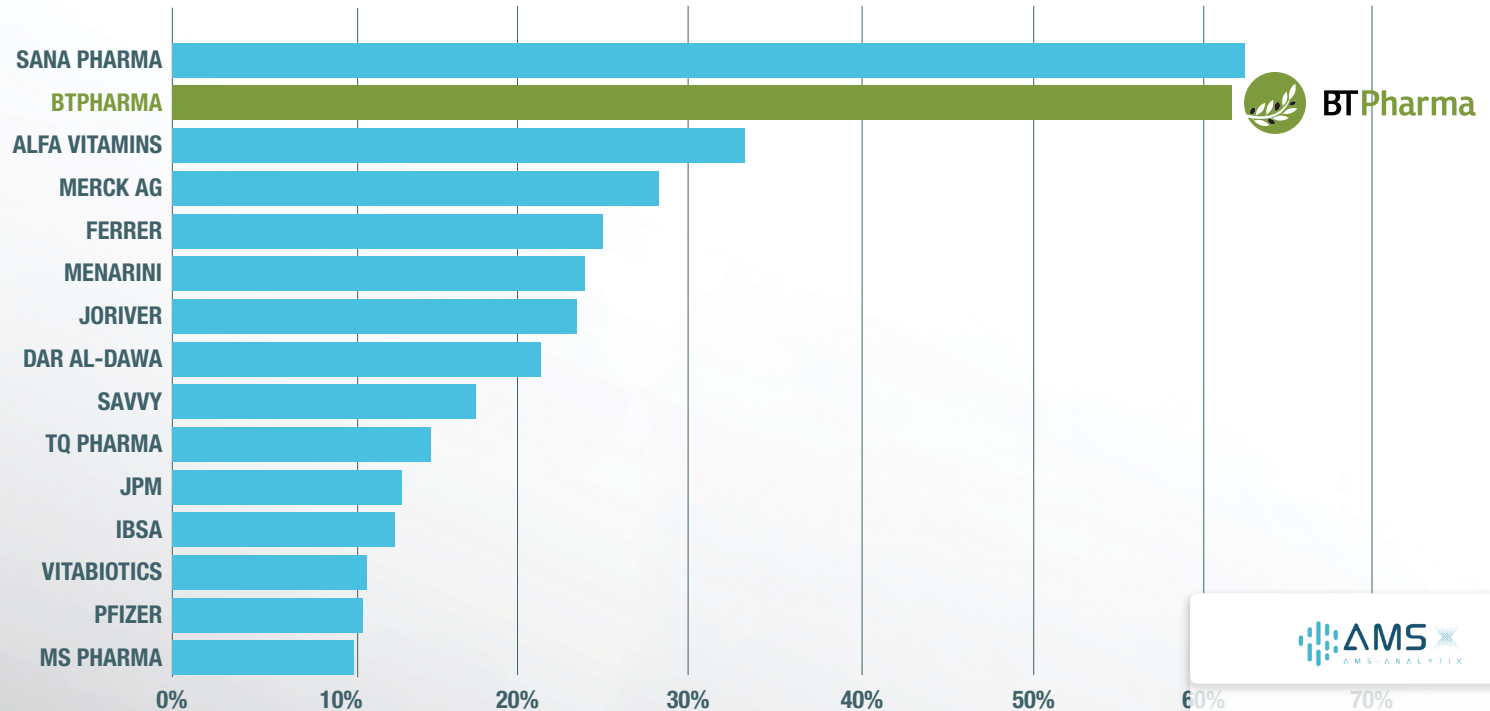

- Honesty
- Ethics
- Integrity
- Respect

Our Goals

- Development and registration of gap filling pharmaceutical and herbal products in the Middle East, North America, Europe and the rest of the world.
- We strive to be a global company with scientific offices and manufacturing sites in different parts of the globe.
- Contribute to local and regional social and charitable activities.

A unique formula that contains Aqua, Sodium Cocoyl Isethionate, Cocamidopropyl Betaine, Amodimethicone/Morpholinomethyl Silsesquioxane Copolymer (and) Trideceth-5 (and) Glycerin, PEG-7 Glyceryl Cocoate, Disodium Cocoamphodiacetate, Sodium Laureth Sulfate, Dimethiconol & TEA-dodecylbenzenesulfonate, Myristyl Lactate (and) Potassium Olivoyl Hydrolyzed Wheat Protein, Sodium C14-16 Olefin Sulfonate, PEG-120 Methyl Glucose Dioleate, Glycerin, Hydroxypropylgluconamide (and) Hydroxypropylammonium Gluconate, Coco-Glucoside (and) Glyceryl Oleate, Dexpanthenol, Perfume, PEG-40 Hydrogenated Castor Oil, Dioleylethyl Hydroxyethylmonium Methosulfate, Styrene-acrylate copolymer (and) Decyl glucoside, Piroctone Olamine, Sodium Chloride, Quaternium-98, Disodium EDTA, Aloe Barbadensis (Aloe Vera) Extract, DMDM hydantoin, Allantoin, Citric Acid, Guar Hydroxypropyltrimonium Chloride, Polyquaternium 10, Methylchlorisothiazolinone (and) Methylisothiazolinone.

Uses:

- Cleanse the scalp and hair effectively, removing dirt, oil, and product buildup.
- Moisturize and condition the hair leaving it soft and manageable.
- Help reduce dandruff and scalp irritation.
- Reduce breakage.
- Improve the overall health and appearance of the hair.

Direction of Use:

1. Wet your hair with water.
2. Take an appropriate amount of Glancy Luxury Shampoo and apply it to your scalp and hair.
3. Gently massage the shampoo into your scalp using your fingertips, working it into a rich lather. Avoid using your nails to prevent scalp irritation.
4. Rinse your hair thoroughly with water to remove all the shampoo.
5. If necessary, repeat the process for a deeper cleanse.
6. Follow with a conditioner if desired, focusing on the ends of your hair.

Pack Size:

6.76 fl.oz (200 ml) / Bottle

Glancy[®]
